## ABOUT US

Sandtech General Contracting Establishment is a business enterprise which has been operating in Jubail, Kingdom of Saudi Arabia for many years. Sand Tech is a professionally managed business and dedication to our valued clients enables our business to ensure client satisfaction, large or small.

Sandtech is a part of GLOBTECH ENGINEERING W.L.L, Qatar which has been part of some major projects and developments throughout Qatar for more than 15 years.

To complete the projects apart from facilities, experience and skill level required to ensure the job is done on time, on budget and with full client satisfaction. Our Company prides itself on the highest quality of work with the highest level of customer satisfaction and with modern premises situated at Jubail.

## Surface Preparation Sandblasting

Sandtech has the resources to address your surface preparation requirements. We utilize coal slag Garnet abrasive blasting, pressure and chemical cleaning, power and mechanical methods of surface preparation. In a constantly changing regulatory environment and with new technologies emerging, you can count on Sandtech's experience to ensure your surface preparation project is performed accurately and safely. We understand that every client's needs are different and we can tailor a solution to your surface preparation challenge. Plus, we'll bring the expertise to provide the latest environmentally friendly methods to accomplish your objective.

## Industrial Coating

Sandtech is a recognized industry leader in the application of industrial protective coatings. From structural steel and piping in house to manufacturing facilities, chemical plants and refineries, in your factory or at our location, we have distinguished ourselves as a progressive company with the resources to handle any size job. When it comes to industrial painting, coating requirements, new construction capital projects or routine maintenance, Sandtech General Contracting Establishment is your preferred partner. Your long term assets are valuable and protecting them is our top priority. Major adding value to our company is the labor force and resources to perform client projects driven by schedule, budget, experience, technology, economies of scale or project specific parameters. Give us your challenge and we will help you develop a solution.

## Fire Protection Coating

Our fire protection coating team, utilizes its staff of trained professionals to safely perform fireproofing projects in petrochemical, energy, and steel fabrication, as well as municipalities and other public places where people gather. We put your mind at ease, whether in a shop or field environment, with competent application of intumescent fireproofing systems. Spray applied, hand troweled or plural application requirements fit within our experience and ability to provide world class asset protection. Working with recognized manufacturers like International®, Carboline®, PPG®, and Hnesotherem, we deliver an integrated, effective approach to passive fire protection. Put our powerful team of assets on your next fireproofing project.

## Fire Proofing

Fire Proofing coating is one of the core services of Sandtech, the Fire Retardant Paint is an effective and affordable that can be used in a variety of situations where fire safety is important. In commercial and Industrial places and also for residential spaces such as children' bedrooms, day care centers, and many more places. It can be top coated or painted over without loss of effectiveness.

## Tanks & Silos Painting

Our capabilities in Tank lining and coating services include coating inspection, surface preparation, lining application and site maintenance programs. Floor resurfacing, refinishing, repair, and sealing services are also offered. Serves the food and beverage, aerospace, automotive, commercial, manufacturing, chemical, petrochemical, packaging, and electronics and telecommunications industries.

## Machinery Painting

We are the fastest expanding and successfully engaged in Plant & Machinery Painting Services. Our machinery painting personnel dedicated to preserving the life of your plant equipment with finest quality paints and long lasting coatings. The use of proper coating techniques on crucial machine parts will help to prevent corrosion and maximize the life span of your industrial equipment.

## Epoxy Floor Coating

Sandtech offers professional epoxy floor coating application services in addition to a variety of other concrete flooring services for clients throughout Jubail, Saudi Arabia. Our flooring services include vapor barrier installation, epoxy floor paint application, concrete polishing, shot blasting and concrete grinding, concrete stain application, flooring and adhesive removal, and PVC flooring installation.

## Abrasion & Wear Resistant Coatings

Abrasion of metals occurs when friction wears, grinds or rubs away metal. It is an undesirable effect to the regular and normal use of exposure of a machine or part. At Sandtech we provide a wide variety of abrasion resistant coatings, including abrasion resistant fastener coatings, to reduce friction and extend the life of your application.

## OUR CLIENTS

All of our projects are evaluated from a safety awareness point of view, rather than a profit oriented point of view and the providing a safe working environment for all employees. Some of our client whom we have serviced in Qatar. and Saudi Araiba.
